

Light Duty Gas Welding and Cutting Outfit

A2Z Equipment Solutions has developed a portable, light duty gas welding and cutting outfit to meet the needs of gas industry professionals, workshops and the DIY enthusiast. It is configured to cater for most regular gas welding, brazing and cutting applications. The premium quality BUTBRO gas equipment is from Europe's largest gas equipment manufacturers GCE and is compliant to national standards. This safe, high quality outfit is durable and flexible with market leading specifications and features.

Gas Equipment

- Medium duty GCE BUTBO single stage pressure regulators:
 - Oxygen 400kPa , Acetylene 150kPa
 - Cylinder connections for G5/8" or Portapak™.
- BUTBRO Orbit shank, welding mixer and cutting attachment
- 7 light duty (DH) welding tips (1-8mm thickness capacity)
- 2 AFN cutting tips (1-20mm thickness capacity)
- GCE torch and regulator mounted flashback arrestors
- 6m GCE 6mm hoses with G3/8 and G1/4" connections
- **Gas cylinders are not included**

Accessories

- Tough polymer carry case for safe storage of equipment
- Multi-purpose spanner
- 13 tip Nozzle cleaner
- Flip front goggles (DIN Shade 5)
- Flint lighter

Trolley

- Robust durable design with geometrical reinforcing
- Powder coated for long lasting rust protection
- Hose hook and lifting lug
- Solid polymer injection moulded wheels
- Cylinder straps that cater for various cylinder sizes
- Rear pocket to safely store GCE Orbit torch kit
- Twin pockets for brazing/soldering/welding consumables
- Wide and stable base
- Extended height handle for comfortable handling
