

Trolley

- Heavy duty 3 wheel configuration
- Prevents cylinders being stored or transferred in horizontal position which can cause acetone extraction during use
- Steering castor with rolling and swivel brake
- Wide wheel base for improved stability
- Raised trolley base allows movement over small obstructions and uneven surfaces
- 3 wheel configuration carries weight, operator only needs to push and steer
- Capacity for 40m of hose
- Bracket to house 4.5kg fire extinguisher
- Galvanised/powder coated frame and powder coated box for corrosion protection
- Serial number identification plate option, for tracking usage and maintenance history

Accessory Box

- Lockable steel box to store accessories
- Torch cannot be removed once box is locked
- Operating instructions fixed to inside of box lid for easy reference
- Cradle safe storage of torch when not in use

Gas Equipment

- Heavy duty and medium duty options
- GCE BUTBRO Multi or single stage pressure regulators
- BUTBRO Superguard re-settable or Slimguard regulator mount FBA's
- BUTBRO Flameguard torch mount FBA's
- 20 m twin or standard hose
- BUTBRO NM250 Heavy duty cutting torch
- 3 ANM cutting nozzles (sizes optional)
- Goggles, gloves, flint lighter, multi-purpose spanner, nozzle cleaner, leak detection fluid
- Maintenance option with history
