

Roof Waterproofing and Heating Outfits

A2Z Equipment Solutions has developed gas heating outfits specifically to cater for the needs of the roof waterproofing, construction and manufacturing industries. The premium quality BUTBRO gas equipment is from Europe's largest gas equipment manufacturers GCE and is compliant to national standards. These safe, high quality outfits are durable and flexible with market leading specifications and features.

Applications

- Torch on waterproofing
- Heating of bitumen
- Industrial shrink wrapping
- Asphalt road maintenance and construction
- Forging/casting mould and die pre-heating

Gas Equipment

- Manufactured by European market leader GCE
- Robust high quality, durable construction
- 2 year warranty
- Safe and precise control of gas flow and superior flame quality
- BUTBRO 0-400kPa LPG Pressure Regulator
- BUTBRO Flashback Arrestor
- GCE LPG 8mm hose, length tailored to customer requirements
- Universal LPG torch with gas saver lever and valve
- GCE Heating tips from 30-60mm diameter 8-136kW
- Stainless steel neck tubes from 75-1000mm in length
- 2 and 4 heating torch manifolds
- Support bracket for resting torch on surfaces safely

Features

- High quality single stage pressure regulator for precise, consistent and safe gas control
- Ergonomic torch handle with pilot flame adjustment and gas saver valve allowing economical use of gas
- Tough and durable polypropylene tool box offers safe and convenient storage of components
- Outfits assembled to customer requirements

Standards

Regulator:	SANS / BS EN ISO 2503
Hose:	SANS / BS EN ISO 3821
FBA:	SANS 50730 / ISO 5175 / EN730
